LIFE: Human MULTI

LIFE: Other _____

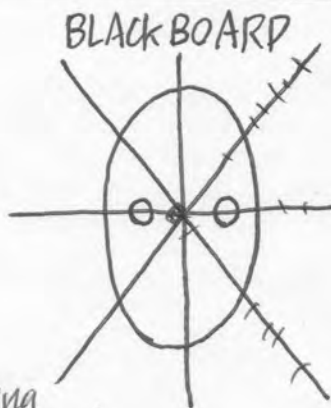

automatic doors,
machinary noises

noises of manufacturing
some mechanical, metallic
objects inside.

busy working,

modern building

a building - people look up.

LAND 1

A big city,
many tall buildings around.
people walking,
civilized,
car noises.
less vegetation outside

Blue reflective, black, metallic,
smokes, smells gas, propane, cars, smog.

metals crashing,

very noisy.

smells smokes, hot burning
(metals melting with hot temps.)

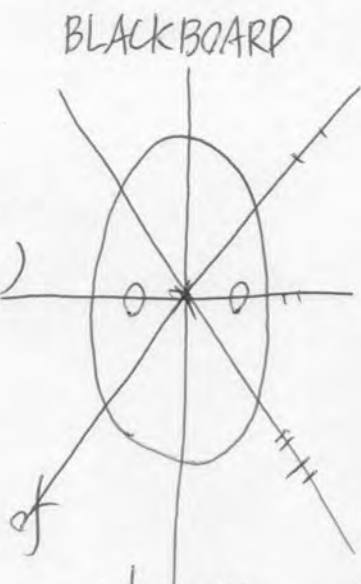

excitement, seriousness,

enthusiasm, smart workers

who have good understanding of

mechanics,

mechanic, machinary devices

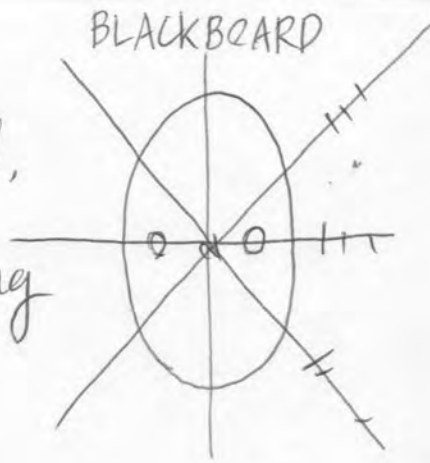

STRUCTURE 1

A lot of people working
inside. Each section/sector/
department has its own specific
purposes. They work differently
but as the whole, they are aiming
at special tasks, the completion

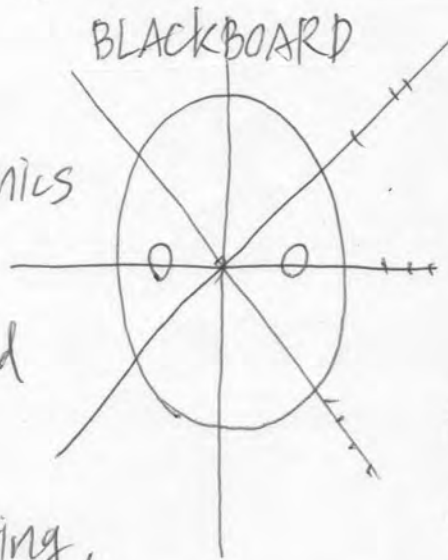

I hear a lot of noises,
clanking, hitting, cutting, breaking

swings, many wheels
combined,
pumping,
producing, belts moving
manufactures
engineering
people working,

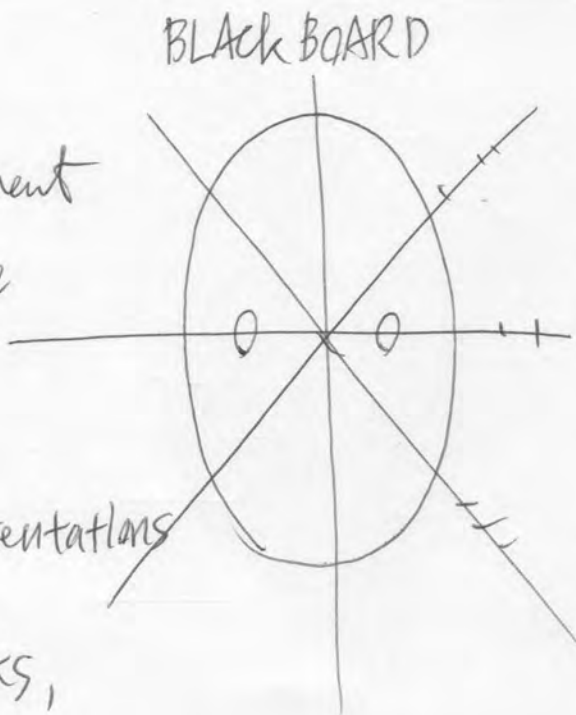

STRUCTURE 2
machines moving with
loud noises,
big machines, hot
computer noises,
monitored.
movement ups and downs,

monitoring,
checking cables, electronics
devices
checking connections and
communications,
experimentations, testing,

PEOPLE 1
mechanical,
technical people
mind-oriented
working hard to get
things done.
constantly moving,

management
- time management
- Human Resource
management
- Structures
- Scientific presentations
technical talks,

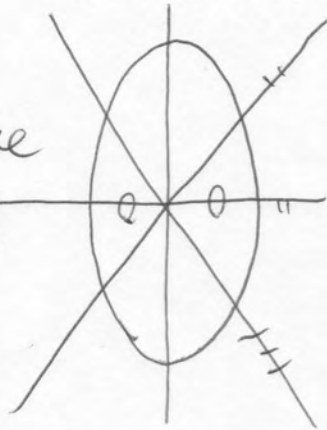

PEOPLE 2
people meeting
international.
internationally well-
known.
importing, exporting
planning,
projects,

national flag or
emblem, something like
symbols in the room.

pictures hanging,

intense, tense mood,

BLACK BOARD

future plans,

PEOPLE

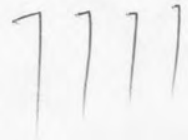

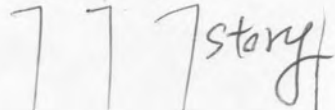

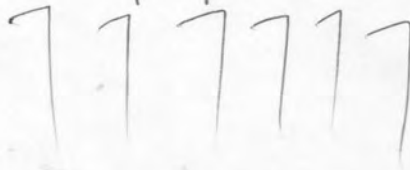

serious meeting to make
important decisions.

presentation,

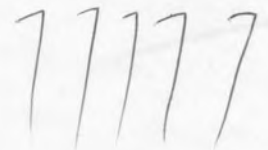

All have important roles,
supervisors, who oversee
the events.

Tall complex building, many stories,

people working inside on each story

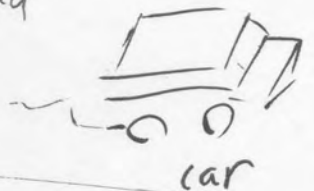

multiple car parking inside

few vegetation

entrance

road

car

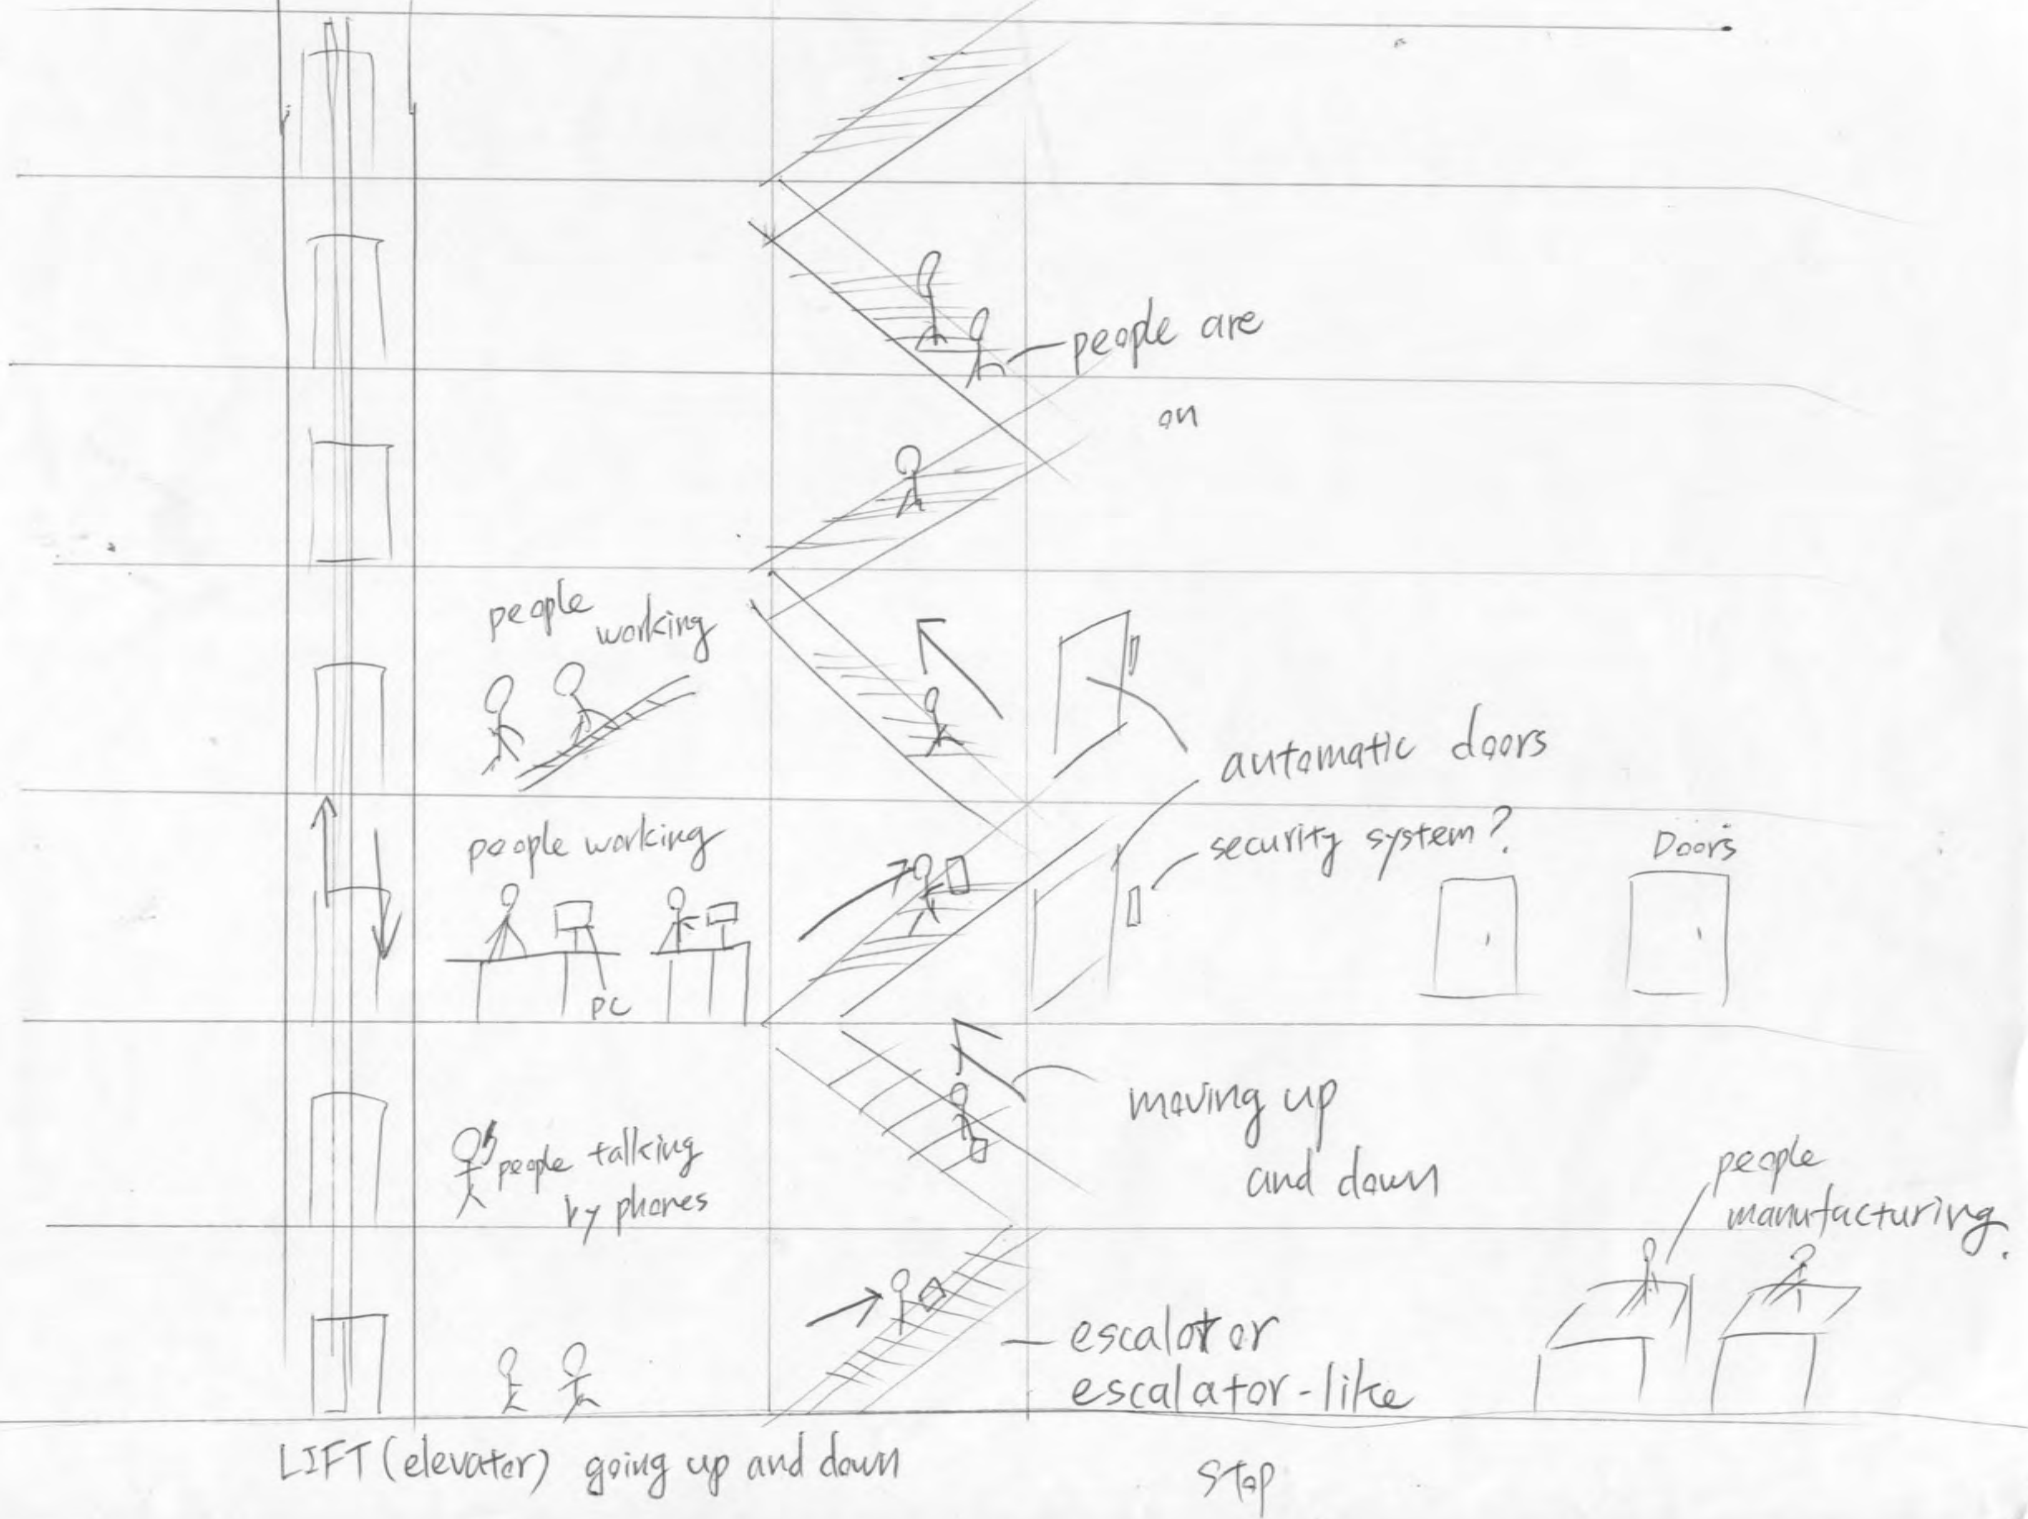

people walking walkway

looks like a big city.

many stories

laws.

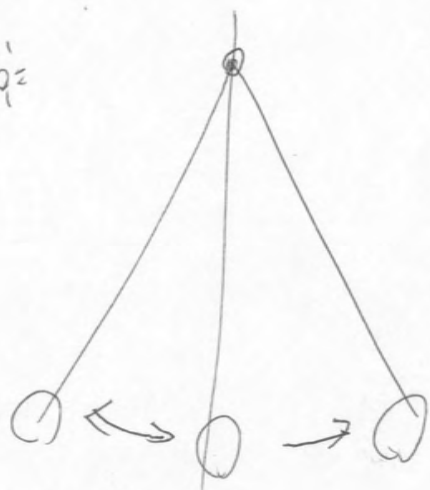

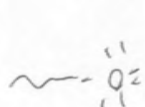

45.

They move somewhat $1/f$.

- Harmonic resonance.
- Corresponding to something.
- Thermodynamics of time.

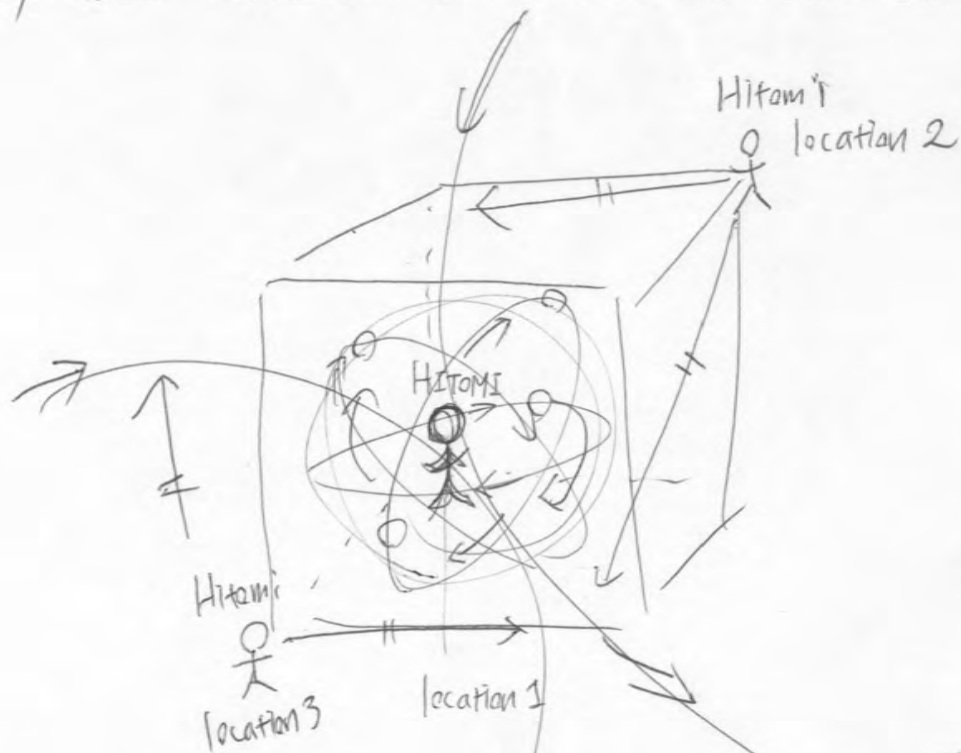

switching constantly

in one second.

swings too rapid to be recognised or registered in the human brain.

INSIDE TUBE,

The existence (ie. the entity), the balls of lights/energies started to communicate with me. The existence was responsive to my thoughts. They came inside me and made clockwise-anti-clockwise movements.

I prayed to God.
