SS21

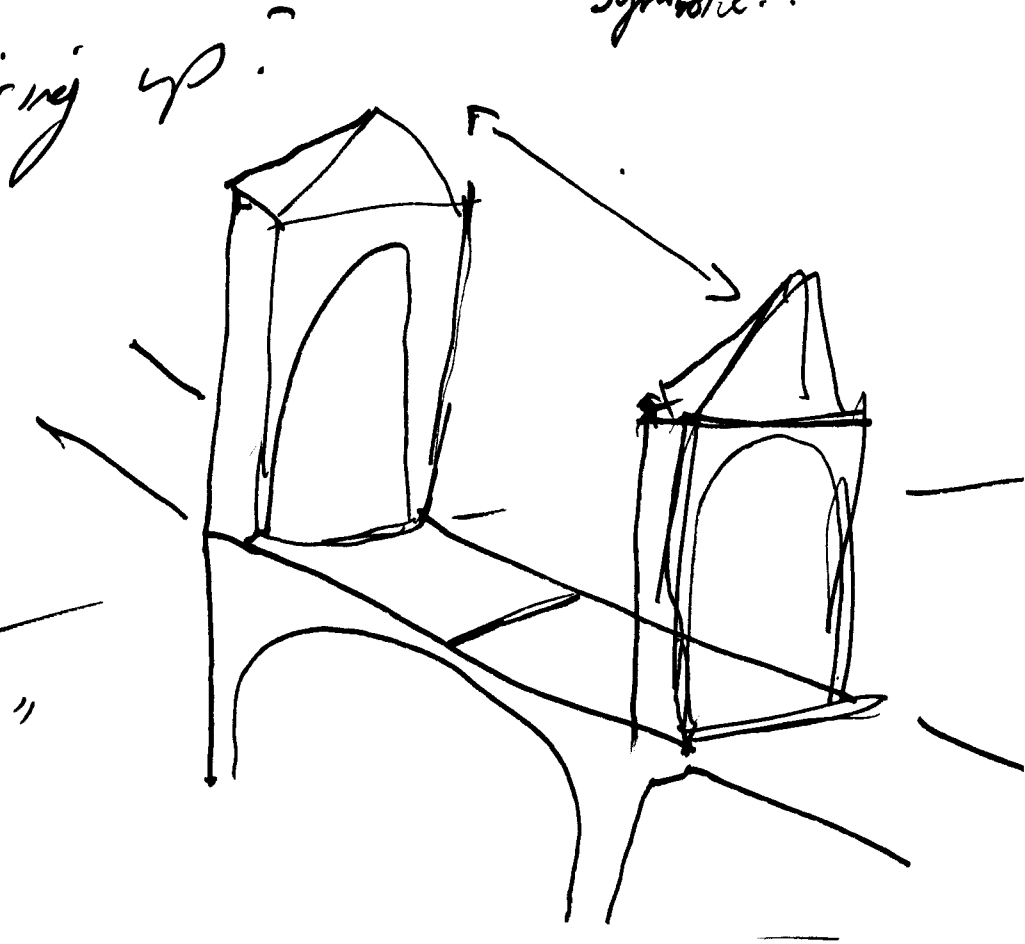

LAND Ideo.
Structure.

Feelings of rising up?

Construction
elevated.

Deliberate
man made
"Like a ladder"
Something to
Climb...

Something on either side of
the target... feels identical.
or symmetrical.

Summary

Target wasn't very clear
in my mind but a bit
sense men make 'physical'
structure located nearby water
also connected to LAND.

The feeling of climbing or
rising represented by what looked
like a ladder or flat tall
device was strong.

Also there was water beneath
me at target site.

If I didn't know any better
I would say it was a bridge
of some kind but not just
any old bridge.

Summary Continued

There was a large AOR of what looked like London Bridge as I saw something being raised on both sides in a mechanical method. Plus the strong feeling that water was beneath me was also very high.

Will End Session here.
