PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: ~~64 TRNS~~ 5061 SESSION NUMBER: 1
 DATE OF SESSION: 881212 DATE OF REPORT: 881215
 START: 1455 END: 1530
 METHODOLOGY: CRV VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in training target # 5061, Skylab.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 500901/199867.
3. (S/NF/SK) COMMENTS: Excellent session. 032 experienced some AOL near the very end of the session because he was pushing too hard. The stage 7 exercise went better than usual, 032 is starting to make a whole range of utterances rather than just hah, hah, hih, hoh, and heh. This was accomplished by telling 032 to first place his mouth and tongue in a position 'that feels right' before attempting to let air through his vocal cords. The search exercise also went well. When 032 was told to move to a position where he could best identify where the site was located, he said that all he could see was black and that he couldn't determine a location on earth. Because of the success of these two exercises, I gave 032 immediate feedback, rather than waiting for a summary. 032 has the nuts and bolts of stage 4 down. The remaining stage 4 sessions will be spent working on operational-type (military facilities, weapon systems, etc...) targets. The stage 7 and search exercises will be performed at the end of each session.
4. EVALUATION: 3
