NATIVE HUTS - LOTS OF STRAW -  
HUTS -

SUMMARY:

SITE IS A GROUPING OF NATIVE HUTS  
MADE OF STRAW AND EARTH NEAR A LAKE/  
WATER INTERFACE IN A VERY DRY REGION.  
HUTS ARE POINTED ON TOP (ROUND POINTS).  
I DON'T KNOW WHETHER THEY ARE ON THE WATER  
OR NOT, BECAUSE I AM REMINDED OF ANOTHER  
SESSION, BUT I FEEL THEY MAY BE.

# Titicaca, Abode of the Sun

CPYRGHT

## Floating world of the Urus

**B**OUNTIFUL AND BUOYANT, totora reeds from Titicaca's shallows supply the Urus with material for homes and boats. Reeds even provide the "ground" these fisherfolk walk on, since they live on floating islands (above). As bottom layers rot, the Indians spread new layers on top.

Seated on the spongy surface (left), an Uru woman grinds barley for making gruel or mush.

Like the Aymaras, the Urus fashion boats of totora (below). Norwegian anthropologist Thor Heyerdahl theorizes that their ancestors may have learned the art from ancient Mediterranean mariners who crossed the Atlantic in similar boats of papyrus. Aymaras from Titicaca helped Dr. Heyerdahl construct a seagoing craft to test his theory (see the January 1971 *GEOGRAPHIC*).
