MONITOR NOTES

(This S-5 was recorded on video.)

- Viewer reports people RUNNING IN VARIOUS DIRECTIONS. They ARE IN A PANIC AND UNSURE which WAY to go.
- Viewer reports multiple deaths
DARKENED SKIN
- Viewer sees A DARK CLOUD OF SMOKE/FIRE
- View says she CAN see a large mushroom-shaped cloud of smoke
This smoke is over land-
a costal area near OCEAN

The Mount Carmel forest fire was a deadly fire that started on Mount Carmel in northern Israel in December 2010, spreading quickly, consuming much of the forest region.

The fire claimed 44 lives, making it the deadliest fire in Israeli history. More than 17,000 people were evacuated, including several villages in the vicinity of the fire, and there was considerable property damage.
